📍 Berlin, Germany

ZUSAMMENFASSUNG

Strategic and detail-oriented Senior QA Engineer with 3+ years of experience designing and executing robust test strategies across web, API, and mobile platforms. Expertise in scalable automation frameworks (Selenium, TestNG, Postman, Playwright), DevOps (CI/CD with Jenkins & Git), and Agile QA methodologies. Proven success in reducing regression cycle times by 40%, increasing automation coverage by 60%, and mentoring cross-functional QA teams. Passionate about bridging technology and business through a data-driven, risk-aware approach to quality engineering.

ERFAHRUNG

Software Test Analyst

Software & Support Media - Entwickler academy

📅 2024 - 2025 📍 Berlin, Germany

Managed complex Software testing applications with a focus on timing, functionality, and cost efficiency.

- Spearheaded mobile testing strategy for iOS and Android apps, reducing production defects by 35% and improving app store ratings by 0.6 stars.
- Automated 80% of regression tests using Selenium & TestNG, decreasing manual testing time by 50%.
- Integrated test automation into CI/CD pipelines using Jenkins, enabling daily builds and reducing feedback loops.
- Led exploratory testing to uncover critical API and network-related issues, improving app performance KPIs.

Software Test Engineer

Cognizant - Travelers Insurance

📅 2021 - 2024 📍 Chennai, India

Assisted in software testing tasks, including planning, execution, and status updates communication.

- Architected scalable automation frameworks using Selenium, TestNG, and JUnit; achieved 75% test coverage across enterprise-level applications.
- Reduced release cycle by 30% via full CI/CD pipeline implementation with Jenkins and Git.
- Championed shift-left testing within Agile Scrum teams, resulting in a 40% reduction in post-release defects.
- Mentored 4+ junior QA engineers and established best practices for accessibility, defect triaging, and quality reporting using Rally.

PROJEKTE

Strategic AI Governance for Risk-Aware innovation : Embedding McKinsey's Responsible AI framework into corporate Compliance architecture - Thesis work

📅 06/2025 - Present 📍 Berlin, Germany

- To identify and analyse the key risks and governance challenges related to corporate AI adoption.
- To evaluate the principles and strategies within McKinsey's Responsible AI Framework that support risk-aware innovation.

AUSBILDUNG

MBA in IT Management

IU Internationale Hochschule

📅 07/2024 - 12/2025 📍 Berlin, Germany

Bachelors of computer science

Guru Nanak College

📅 06/2018 - 05/2021 📍 Chennai, India

KEY ACHIEVEMENTS

Saved 20+ hours per sprint via CI/CD QA pipeline integration.

Automated over 500+ test cases leading to 40% faster regression cycles.
